

THE BERTRAND H. FARR LIFETIME ACHIEVEMENT AWARD

is hereby awarded to

Don Hollingsworth

...in recognition of his continuous service to the American Peony Society and his tireless efforts to educate the gardening public, commercial growers and APS members concerning the peony, Don Hollingsworth is awarded The Bertrand H. Farr Lifetime Achievement Award. Don's dedicated leadership has been instrumental in promoting the peony as a cut flower, a landscape subject and introduction of new peony cultivars to the marketplace. Since 1958, when Don planted his first peony, he has been a student, and more importantly a teacher, of peony culture and propagation. The genus has known no greater champion in the modern era!
