

# **American Peony Society**

## **Corresponding Secretary Report, October 10, 2021**

There have been over 50 significant separate email enquiries in the past three months resulting in many responses and the need for assistance for some topics. Thank you to all the directors and officers who have assisted me this year and in the past.

The most frequent inquiries involve disease and growing concerns, nomenclature and identification, as well as membership and internet issues.

Hazel Cook

Corresponding Secretary
