

American Peony Society

Seasonal Activity Pause, May 15 to June 15

Each year APS leadership, administrators, committees and programs pause their work for the society so they are able to enjoy their personal gardens, tour, vacation and attend the Annual Convention. During this period APS pauses work on membership, seed sales, peony registrations and correspondence. Be assured that any orders or memberships will be recorded and addressed after this period.

Please also note the society is entirely operated by uncompensated volunteers at every level. Some volunteers will also be unavailable at various periods of time throughout the summer and year for personal reasons. Again, all volunteers will gladly address your inquiries upon their return.

Best wishes for a fantastic bloom season,

APS
