No separate Checklist maintained. Registry includes established names when any are found to fit the criteria. Newly accepted established names would appear in that year's Directory of New Cultivars.

5. Please would you list all the hard copy publications relating to the Register and Checklist that you published in 2020 and 2021. Remember that the registration processed is only complete once the registration is published in a dated hard copy.

6. Please take this opportunity to let us know of any other significant developments relating to your Register and Checklist (e.g. new online facilities or listings, significant new contacts or source of information discovered during the year). In addition, please use this opportunity to raise any problems that you would like to bring to our attention.

There is an online registry with unrestricted access that has been in place for several years.
